H1 Highlights

- As previously announced on 23 September and further explained at the 22 October Capital Markets Day, the Company experienced lower, but ongoing, spend from many of its largest clients during H1, due to the wider macroeconomic uncertainty.
- Continued revenue growth in the USA (+3%), and APAC (+11%). UK -9%, LatAm -5%. Year-on-year FX impacts in all non-UK regions reduced reported revenue growth by ca 2% overall.
- Platform revenue declined 3% on H1 FY25 to £16.2m and represented 95% of total revenue (H1 FY25: 91%). Total revenue decreased by 7%.
- New client revenue £3.4m in H1 (H1 FY25: £3.2m).
- Innovation Revenue +26% on H1 FY25, Adtesting down by 10%.
- Gross profit margin in line with H1 FY25 at 87.0% (H1 FY25: 87.3%).
- Operating expenditure increased by 7% to £14.6m (H1 FY25: £13.7m), due mainly to investment in future growth, with lower variable pay mitigating the year-on-year increase.
- Non-repetition of £0.3m H1 FY25 Other Operating Income relating to sublease income on a former property lease and a trademark co-existence agreement.
- Share based payments charge of £0.1m (H1 FY25: credit of £0.1m). Adjusted Profit before Taxation¹ £0.3m (H1 FY25: £2.4m).
- Cash balance of £10.8m as at 30 September 2025 (31 March 2025: £12.9m; 30 September 2024: £8.9m).
- £2.1m free cash outflow in H1 (H1 FY25: outflow of £0.3m) due mainly to the payment of bonuses earned in the previous financial year.

System1 CEO James Gregory commented:

"We have made good progress in the focus areas of Innovation, the USA and winning with the world's largest brands – and this in the face of reduced market research spend by a number of our large clients.

With further new client wins, and bookings in October and November that have been stronger than we saw in H1, the Company continues to trade in line with the guidance² we gave in the 23 September 2025 trading update."

Total revenue decreased by 7% on H1 FY25 to £17.1m and Platform revenue declined 3% to £16.2m, representing 95% of total revenue (H1 FY25: 91%). Within Platform revenue Data was flat year on year at £13.4m and Data-led consultancy decreased by 16% from £3.3m to £2.8m. In the US total revenue increased by 3% to £6.6m and US platform revenue by 11% to £6.0m. APAC continued to grow strongly, up 11% on the comparable prior-year period. Continental Europe was 36% lower year on year despite improving quarter on quarter, with LatAm and the UK down on H1 FY25 by 5% and 9% respectively. The reported reduction in LatAm revenue was entirely due to currency movements; the UK outturn reflected lower but ongoing spend by existing clients due to the wider macroeconomic uncertainty. The rest of Europe, particularly for automotive

and luxury goods clients, was severely affected by global tariff uncertainty in the first quarter, but trading in that region has improved steadily since then.

Ad testing (Comms) revenue decreased by 10% to £14.3m. Brand was flat on H1 FY25 at £1.2m, with Innovation growing by 26% over the same period to £1.6m following significant and accelerated investment as we continue to develop and enhance the offering.

Our fame-building, products and partnerships helped the Company to win 160 new platform clients in H1 (H1 FY25: 161). Noteworthy initiatives in H1 included:

- The Long & the Short (Form) of it System1 and TikTok partnered to explore what makes TikTok ads effective. Using our Test Your Ad platform, the research reveals how sentiment, attention, and creative features impact performance, offering insights on sustaining attention, entertaining users, and integrating branding effectively. At the same time the business launched a new Test Your Ad Social product, targeting digital advertising, the fastest growing ad spend area.
- <u>The Creative Dividend</u> For the first time, System1 has combined the Effie Case Library with our emotion-first creative measurement database, Test Your Ad, to build the largest global creative effectiveness databank. The research introduces the Creativity Stack: five evidence-based creative principles that allow any brand to create lasting effects with brilliant advertising.
- <u>Double Take</u> in partnership with JCDecaux draws on System1's predictive testing of 1000+ OOH campaigns with 180,000 consumers across 7 markets using its <u>Test Your Ad</u> platform. For the first time, a subset of these results have been linked to JCDecaux's campaign performance data to reveal how emotion and branding drive brand and commercial effects in one of the world's most powerful media channels

New business wins in the US delivered £1.1m of platform revenue in H1 and included:

- the largest supermarket operator in the US;
- a multi-billion-dollar US beverage business; and
- a global top 3 video gaming brand.

In the UK and Europe new business flow was also strong with ca 100 new clients onboarded in H1 delivering £1.8m of platform revenue, including:

- a global banking and wealth management company:
- · a global entertainment and media business; and
- the UK's largest wealth manager

Gross profit margin decreased slightly from 87.3% in H1 FY25 to 87.0%, and remained comfortably above our 85% benchmark.

Operating Costs increased by 7% versus H1 last year due mainly to investment in growth over the past 18 months, with lower variable pay mitigating the year-on-year increase.

Overall average headcount increased by 20% to 191 FTE owing to new hires principally in the Sales and Operations teams to deliver and support business growth with existing and new clients

Other Operating Income

The lack of other operating income in H1 reflects the non-repetition of £0.3m in H1 FY25 relating to sublease income on a former property lease and a trademark co-existence agreement.

Tax

The Group has recognised a tax charge of £0.1m in the six months to 30 September 2025 (H1 FY25: tax charge of £0.8m). The increase in the effective tax rate from 31% in H1 FY25 to 54% in H1 FY26 is attributable to the uneven distribution of profits in H1.

Earnings Per Share

Diluted and Basic Earnings per Share declined to 0.9p from an H1 FY25 Diluted and Basic earnings per share of 13.8p and 13.9p respectively, in line with the decrease in post-tax profits in H1 FY26.

Cash

The Group ended the period with cash of £10.8m (H1 FY25 £8.9m, FY25: £12.9m). Free cash flow after property lease costs and interest income amounted to an outflow of £2.1m in the first half, reflecting the payment of £2.2m in bonuses and commissions relating to FY25. (H1 FY25: free cash outflow of £0.3m).

Dividend

The final dividend for FY25 (£1.4m) was paid on 17 October. As previously announced, the Board's policy is to declare a final dividend only and there is therefore no proposed interim payment.

Balance Sheet

Total equity increased to £14.4m (31 March 2025: £14.1m), arising from the year-to-date post-tax profit of £0.1m and a £0.1m gain on foreign currency reserves arising from the revaluation of net assets held in overseas subsidiaries at 30 September 2025. Intangible assets have decreased by £0.1m as a result of amortisation charges of £0.4m on completed projects, offsetting the capitalisation of £0.3m associated with further development of the platform. Property, plant and equipment has increased by £0.7m, along with an increase in lease liabilities of £0.6m, as a result of the inception of new office leases in the UK and the US.

Current trading and outlook

With further new client wins, and bookings in October and November that have been stronger than we saw in H1, the Company continues to trade in line with the guidance² we gave in the 23 September 2025 update.

System1 Group PLC (the "Company") was incorporated on 19 September 2006 in the United Kingdom. The Company's principal operating subsidiary, System1 Research Limited, was at that time already established, having been incorporated on 29 December 1999. The address of the Company's registered office is 4 More London Riverside, London, UK SE1 2AU. The Company's shares are listed on the AIM Market of the London Stock Exchange ("AIM").

The Company and its subsidiaries (together the "Group") provide predictive marketing data and market research consultancy.

The Board of Directors approved these interim financial statements for the six months ended 30 September 2025 for issuance on 2 December 2025.

The financial information set out in this interim report does not constitute statutory accounts as defined in Section 434 of the Companies Act 2006 and is unaudited. The Group's latest statutory financial statements were for the year ended 31 March 2025 and these have been approved by the Board of Directors and filed with the Registrar of Companies. These accounts, which contained an unqualified audit report under Section 495, did not include a reference to any matters to which the auditor drew attention by way of emphasis of matter and did not contain a statement under Section 498 (2) or (3) of the Companies Act 2006.

1. Basis of Preparation

This condensed consolidated interim financial information has been prepared in accordance with UK adopted IAS 34 *Interim Financial Reporting* and on the going concern basis. The Board reviews the performance of the Group monthly, and senior management has a weekly assessment of sales revenue. The Group also prepares and reviews cash flow forecasts and is confident that the going concern assessment remains appropriate. The results presented in this report are unaudited and they have been prepared in accordance with the recognition and measurement principles of UK-adopted International Accounting Standards that are expected to be applicable to the financial statements for the year ending 31 March 2026 and on the basis of the accounting policies to be used in those financial statements. The condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements, being the statutory financial statements for System1 Group plc, as at 31 March 2025, which have been prepared in accordance with UK adopted International Accounting Standards with the requirements of the Companies Act 2006 as applicable to companies reporting under those standards.

The preparation of financial statements in accordance with UK-adopted International Accounting Standards ("UK-adopted IFRS") requires the use of certain critical accounting estimates.

2. Principal accounting policies

The principal accounting policies adopted are consistent with those of the financial statements for the year ended 31 March 2025.

for the 6 months ended 30 September 2025

The only software asset as at 31 March and 30 September 2025 is the Group's finance and operations system that was brought into use October 2020.

Development costs relate to costs capitalised for the development of the following:

"Test Your" platform, which underpins the delivery of our data and data led consultancy product suite and was completed during the year ended 31 March 2023. The carrying value at 30 September 2025 was £56k (31 March 2025: £205k)

Supply Chain Automation platform which enables System1 to interface (via API) with multiple suppliers of panel respondents and was substantially completed at 31 March 2024. The carrying value at 30 September 2025 was £528k (31 March 2025: £724k)

Modular Surveys, which facilitates the automation of custom products and was completed in two phases in the year ended 31 March 2025. The carrying value at 30 September 2025 was £144k (31 March 2025: £178k)

Boost, which optimises our methodology for sourcing sample respondents, which was substantially completed in August 2025. The carrying value at 30 September 2025 was £284k (31 March 2025: £145k)

Tag and Search, a data optimisation tool completed in July 2025. The carrying value at 30 September 2025 was £99k (31 March 2025: £nil).

Development costs in respect of completed projects are tested for impairment where impairment indicators exist. No indicators exist at 30 September 2025 (31 March 2025: none). Development costs in respect of ongoing projects are tested for impairment at each reporting date. The carrying value of the assets in each case are assigned to their respective cash generating units for the purposes of assessing future cashflows. The principal assumptions used in the forecasts were the timing and amount of future revenues and cost savings, which were derived from the latest forecasts approved by the Board. Following the assessment, the Board have determined that no impairment of assets is required as at 30 September 2025 (31 March 2025: £nil). The headroom in the impairment review exceeds the carrying value of the asset.
